

Enlighten your look *Livinia*

WEST AUSTRALIAN'S ARE IN FOR A TREAT WITH A NEW MAKEUP RANGE LANDING IN PERTH.

*P*erth Woman recently learned of an exciting new makeup range that has finally reached Western Australian shores. Livinia Mineral Makeup, a makeup collection like no other, was developed in 2007 by dedicated beauty therapist and makeup artist, Debbie Valleri.

Debbie began to formulate this range with three principles in mind. She wanted to achieve a natural makeup that was environmentally friendly, suitable for sensitive skins and contained only those ingredients which benefited the skin. From this, Livinia Mineral Makeup was eventually born, a beautiful makeup collection that provides the wearer with superior coverage while also being gentle on the skin.

Called Livinia meaning 'purity', this makeup gives a natural healthy glow and flawless finish. Made from purified and crushed Australian minerals, this makeup is made to enhance your skin's natural beauty. This makeup also has broad spectrum protection to shield your skin from the harsh Australian sun.

All of the products are formulated without the use of parabens, synthetic chemicals, bismuth oxychloride, talc, dimethicone, artificial colouring and fragrance. Non-comedogenic and non-irritating, the purity of the ingredients used in the Livinia range makes it suitable for sensitive skins and can be used after cosmetic procedures. The makeup range is registered with the Vegan Society and accredited with Choose Cruelty Free.

This Australian owned and made brand focuses on the quality and low environmental impact of the ingredients and manufacturing process. With no fillers used to bulk up products, the Livinia range is also cost-effective.

The entire Livinia Mineral Makeup range can be viewed online by visiting www.livinia.com.au.
